

CATALOGUE
OF
BRITISH —————
ORTHOPTERA,
NEUROPTERA,

— • * • —
BY THE LATE
C. W. DALE, F.E.S.

Revised and corrected.

W. H. HARWOOD & SON,
94 STATION ROAD, COLCHESTER.

1907.

This Catalogue is based upon one prepared by the late
C. W. DALE, shortly before his death, which event delayed
its appearance.

It has been considered advisable to take advantage of the delay by having the various sections revised and brought up to date, and this has been kindly undertaken by Messrs. Malcolm J. Burr, F.L.S., etc. (*Orthoptera*); W. J. Lucas, F.E.S. (*Odonata*); H. L. F. Guermonprez (*Copeognatha*); and Kenneth J. Morton, F.L.S. (remainder of *Neuroptera*, and *Trichoptera*), and to these gentlemen our best thanks are due.

W. H. HARWOOD.
